

Daycare/Boarding Application Process

PLEASE KEEP THIS FOR YOUR RECORDS

Once we have received your paperwork and shot records, we can then schedule an evaluation for your dog(s). We will carefully review your dog's ability to interact with other dogs in a safe and appropriate manner by doing one on one introductions with dogs on leash one dog at a time. We will group your dog based on activity level, size, and age. The goal is work into a group of 5 or more dogs. We want your dog to have 100% positive experience during their evaluation. If your dog is uncomfortable at any point during this process, we will pause the process and try again in the afternoon or an additional evaluation day may be required. All dogs have different levels of experiences and social skills, so some may take longer than others to become comfortable in a group setting, this is normal. This process must be conducted in order to determine if your dog meets the criteria for our daycare program and typically takes 3-5 hours. A full report will be given to the owner at the end of the evaluation on our recommendations for your dog. We typically recommend a minimum of two days of daycare per week for a consecutive month to get them accommodate to our program and also assists us to get to know your dog for individualized care.

PLEASE NOTE: The Application and Veterinary Records/Release MUST be completed and reviewed by K9 & Company Retreat's staff PRIOR to your dog's interview/evaluation. Interviews with incomplete paperwork will not be considered. We must have it no later than 5 PM the day before your dog's assessment. If you are from out of town, please call our office for additional information in regard to evaluations, daycare and boarding.
